Peace, wasp, the stopper, waterfalls,
the corpse, gallons, owl,
places, itch, tombs, the glass, brunettes,
ingratitude, the pan, the acolyte,
drops, forgetfulness,
dominion, cousins, archangels, a needle,
parsons, ebony, disdain,
the part, the type, stupor, soul. . .

Ductile, saffron-like, eternal, lustrous,
portable, aged, thirteen, bloody,
photographed, strips, tumefact,
connected, long, laced, treacherous. . .

Burning, comparing,
living, fuming,
beating, analysing, listening, shuddering,
dying, holding onto, situating oneself, weeping. . .

perhaps, meanwhile, behind, so much, so unlikely,
below, perchance, afar,
always, that there, tomorrow, so much,
so much. . .!

The horrible, the daily, the extremely slow,
the august, the fruitless,
the unfortunate, the convulsing, the moist, the fatal,
the all, the purest, the murky,
the severe, the satanic, the palpable, the profound. . .
